LOGSYS
LOGISTICS SYSTEMS

LOGSYS - Logistics Systems Ltd. is distributional and logistics support to companies that enter Central and Eastern European market, in field of home appliances and consumer electronics. With innovative services we help you to improve distribution net and to ensure profitable supply chain managing.

WHY IS LOGSYS DIFFERENT

Your supply chain - Logsys makes it simple! We offer concept of market supply directly from manufacturer to consumer with reduced costs of supply and avoiding many hands in distribution chain. Such approach to clients and to business enables favorable prices for end users and ensures larger profit for manufacturers - our clients. Knowing the regional market and local cultures is an advantage that guaranties the fastest and most favorable entrance of our clients' products on regional market. Focus on clients is supported by Logsys competency in new technologies and processes, and emphasizing the IT support will enable good interaction between manufacturer and consumer.

YOU CREATE THE SERVICES YOU NEED

Logsys offer services in two different fields:

:: Warehousing and distributional center with logistics support for Central and East European market, which includes:
